The State of CA has set a requirement to reduce water usage by 25%. Join the discussion on how this will affect our use of potable water.

What is our water availability in Stallion Springs and what will be available in the future?

What can you do to conserve water?

The District needs your input and support to meet our conservation goals.

Discussions will also be held on the proposed 2015/2016 budget, police services, park projects and other District operations.

If you have any questions, contact the CSD at 661-822-3268.

We'll see you there.
