

The Stallion Springs BRIDGE

OCT/NOV 2016

Issue #181

Build a bridge, not a barrier; make a friend, not a fuss; find a cause, not a controversy; be a cheerleader, not a critic; seek a solution, not a standoff

Greetings, Stallion Springs residents!

DID YOU KNOW..? The Stallion Springs Community Services District has Conditions, Covenants, and Restrictions (CC&Rs), to preserve and enhance property values throughout our community. These CC&Rs are intended to provide standards that are reasonable, fair, and equitable for all property owners in Stallion Springs. Copies of the CC&Rs are available at the CSD office or online at mysscsd.com.

DID YOU KNOW..? *Community Clean Up Day will be on Saturday, October 22 from 9am to 1pm.* This is a great opportunity to clean up our Community. Large roll off bins will be available at the CSD parking lot from 9 am until 1pm for residents to drop off large bulky items that

include electronic waste, furniture, metal and wood that **are not allowed at the transfer station.** Please, save all your items not allowed at our disposal site and bring them down to the CSD parking lot for FREE disposal. If you need assistance in getting these bulky waste items down to the CSD, please call the CSD office at 661-822-3268 before Thursday, October 20th at 4pm to arrange for a pick up by CSD staff on Friday, Oct. 21st.

DID YOU KNOW..? The Stallion Springs Community Services District has a new Office Administrative Secretary, Judith Quijada. Judith joined the SSCSD office team on September 19th and we welcome her to our staff. We are excited to have Judith join our staff. Welcome Judith!

- Lori Rodgers, G.M.

TWO RIVERS

I think there are two rivers that run through the world. Each river that flows may dictate the balance between the total sum of all that's good and bad in humanity. Sometimes we feed into the good river and sometimes into the bad, whether intentional or unintentional. At our finest, we feed into the good river intentionally. This river, like the bad river, feeds into its own ocean. Don't ask me which ocean is bigger or deeper, or which river runs faster or longer. I don't know.

A good percentage of people have lived a great part of their lives trying to feed into the good river. That same good percentage, I like to think, leaves home in the morning with the best of intentions to go about their business, not hurting anybody, doing their thing throughout the day, feeding into the good river when they can.

Police work puts you in a small raft in the middle of both rivers. As things progress from incident to

incident, call to call, you may end up floating down the river to the ocean, or you may be beached on a sandbar. Fortunately, you may witness the best humanity has to offer as you are diverted to the good river. The best officers try to make each contact count for something, and feed into the good river. A hug, a word of encouragement, some validation, empathy, a shared tear, some counseling.

Maybe the rivers of both good and bad never feed into any ocean at all. Maybe they continue traveling around the earth and end up back at the beginning, where it's cold and pure.

Which river do you feed into?

-Michael Grant, Chief of Police

STALLION SPRINGS PROPERTY OWNERS WELCOME COMMITTEE

STALLION SPRINGS PROPERTY OWNERS WELCOME COMMITTEE

Welcoming families to Stallion Springs is an easy chore when you really love and enjoy the community in which you live. That is the case with Kay and me when we set aside afternoons to call on new home owners. This particular Tuesday, September 6th, the temperature was a comfortable 76 degrees and the sky its usual bright blue when we found four families out of seven home and open to our visits.

The Cervantes, Chris & Julie, moved out from neighboring Golden Hills to a home located on a lovely acreage. Their son, also named Chris and a recent college graduate from San Louis Obispo, had taken a couple of weeks off work to help his parents move. The family has lived in Tehachapi for many years.

We welcomed James Fabos on behalf of his parents, Jim & Deborah who were unavailable at the time. The Fabos joined us from the San Fernando Valley. Rose & Gary Mankoff had barely moved into their home and were in the process of many renovations when we arrived. They expressed their love for the quiet and the friendliness of their neighbors. Gary is a Therapeutic Massage Therapist and Rose has many talents among them; being an RN, an Attorney, an artist and a real estate agent. They have two adorable dogs, Buddy and Becky who also were warm in their welcome.

Carlos and Hortensia Tapia came from Illinois. Hortensia originally grew up in Los Angeles but when they returned to California, they compromised by moving to Tehachapi where it is less crowded and has four seasons. They have three children, Christian, Cassandra and Carlos.

Welcome to the Fredriksens, Gordon Lasagna and the Olguins who were not at home at the time of our visit. All in all, the day was most pleasant and we found, as usual, the nicest people choose to live in Stallion Springs.

Stallion Springs Trails

The trails work group has been busy weed whacking, pruning, and repairing trails this spring and summer. Thank you to the small handful of folks who helped this season. It is a big job, especially after such a rainy winter. Hopefully you will take the time to get out and try some of the trails in the early morning, before it is too hot.

Due to the dwindling work force year after year, this year we cleared the most well-used trails, and the favorites of the trail workers. There is just too much work for such a small group to tackle them all. We are done for this season, so there will not be any additional trail

work days until next spring/early summer. When we begin again will depend on the type of winter we have and the weather in the spring. Information will appear in the Bridge when we are getting started.

CERT

CERT (Community Emergency Response Team) Basic Training Class

CERT is about readiness, people helping people, rescuer safety, and doing the greatest good for the greatest number. CERT is a positive and realistic approach to emergency and disaster situations, where citizens will be initially on their own and their actions make a difference.

Through training, citizens can manage utilities and put out small fires; treat the three killers by opening airways, controlling bleeding, and treating for shock; providing basic medical aid; search for and rescue victims safely; and organize themselves and spontaneous volunteers to be effective.
